

BASB600NN-2

- Sheet size 600×600 mm
- SS Filter plates and frames
- Manual hydraulic closing

Stainless steel plate & frame filter

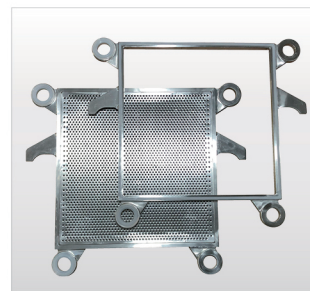

The BASB600NN is a high precision stainless steel plate and frame filter, High precision construction of the plate and frame assembly and hydraulic closing mechanism, combined with filter sheets, minimize drip-loss.

- Minimized drip-loss
- Precise construction
- Applicable to a variety of filter media
- Variable application options
- Wide range of application
- Efficient handling and good cleanability

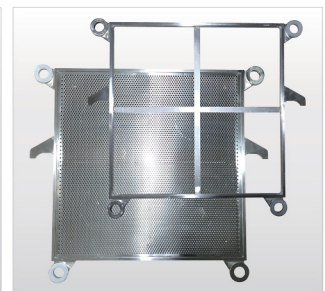

Materials	
Rack	Stainless steel 304
Filter flate & frame	Stainless steel 304 / 316L
Gaskets / O-rings	Silicone / Viton / EPDM

Operating Conditions	
Operating temperature	Max. 120 °C
Operating pressure	Max. 0.4 MPa

Stainless steel filter plates & cake frames

400×400 Filter plate & frame

600×600 Filter plate & frame

Silicone O-ring

Manual hydraulic closing

Technical data

Filter size (mm)	Filter plate / Filter frame (Pieces)	Filter sheets (pieces)	Filter area (m ²)	Cake frame volume (L)	Dimensions L×W×H (mm)
BASB400UN-2					
400×400	20/0	19	3	/	1550×670×1400
400×400	44/0	43	6	/	2100×670×1400
400×400	70/0	69	9.5	/	2700×670×1400
BASB600NN-2					
600×600	20/21	40	14	84	1750×870×1350
600×600	35/36	70	24	144	2250×870×1350
600×600	50/51	100	35	204	2800×870×1350

The above-mentioned data is the standard, it can customize according to customer's requirements.
